

Cash Register-D215

Ultimate All-in-One Integration

The device features a highly integrated design that combines an 11.6-inch main screen, a 5-inch secondary customer display, and a built-in 3-inch (80mm) thermal printer (with auto-cutter) into a single compact unit, maximizing counter space efficiency.

Crystal-Clear FHD Display

Unlike standard POS terminals, the D215 boasts a high-resolution 1920*1080 (FHD) capacitive touchscreen, delivering sharp, vibrant visuals that enhance the user interface and operational experience.

Advanced Processing Power

Powered by the robust RK3568 Quad-Core 2.0GHz processor and running on the latest Android 13 operating system, it ensures fast, stable performance and superior compatibility with modern apps.

All-in-one desktop POS for diverse applications.

Built for Ordering / Restaurant, Food takeout, Soft Pos, Top-up, Retail and Lottery.
