Cash Register-D6

Beyond Performance

D6 is powered by a Quad-Core 2.0 GHz processor running on the Android 11 operating system, ensuring smooth and stable performance for complex POS software and daily transactions.

Spacious Interactive Display

The device features a large 15.6-inch LCD capacitive touchscreen with a resolution of 1366*768. This provides a wide, responsive interface that improves efficiency for cashiers and operators

Comprehensive Connectivity

Designed for versatility, it supports Dual-Band WiFi (2.4GHz / 5GHz) for reliable wireless connections and includes a rich set of I/O ports—including RJ11 and RJ12 for cash drawers and 4 USB ports—to easily connect scanners, printers, and other peripherals.

All-in-one desktop POS for diverse applications.

Built for Ordering / Restaurant, Food takeout, Soft Pos, Top-up, Retail and Lottery.
