

Kiosk-K156

15.6-inch Horizontal HD Display

The kiosk features a 15.6-inch landscape capacitive touchscreen with HD resolution (1366*768) and adjustable backlight brightness, providing a wide and responsive interface for comfortable user interaction.

Integrated High-Speed Printing

It is designed with a built-in 3-inch (80mm) thermal printer that features an automatic cutter and a fast printing speed of 200mm/sec, eliminating the need for external printing peripherals.

Reliable Android Core

Powered by the RK3568 Quad-Core 2.0GHz processor and running on the Android 11 operating system, it ensures stable and efficient performance for various retail and self-service applications.

All-in-one Kiosk for diverse applications.

Built for Self-ordering, Food Delivery/Takeaway, Soft Pos, Top-up, Retail and Parking.
