

Kiosk-K215

Immersive Vertical Display

The kiosk features a massive 21.5-inch FHD (1920*1080) capacitive touchscreen with adjustable backlight brightness. This large, vertical layout provides a brilliant and engaging interface, making it perfect for self-ordering menus and digital signage.

All-in-One Self-Service Design

It is a fully integrated powerhouse that includes a built-in 3-inch (80mm) thermal printer with an auto-cutter (printing at 200mm/s). It also supports optional modules like a 2D barcode scanner and NFC reader, eliminating the need for external peripherals.

Robust Android Platform

Powered by the RK3568 Quad-Core 2.0GHz processor and running Android 11, the K215 ensures fast, stable, and responsive performance for demanding commercial applications and unattended operation.

All-in-one Kiosk for diverse applications.

Built for Self-ordering, Food Delivery/Takeaway, Soft Pos, Top-up, Retail and Parking.
